

Baking and Packaging Cookies

BAKING TIPS: The one requirement is that they are home baked!

- Cookies ship best if they are frozen cookies prior to being dropped off/shipped
This means you can bake/freeze whenever it is convenient
- Thick cookies ship better than thin cookies.
- Use butter flavored Crisco rather than butter or ½ of each
- Please avoid frostings as they do not ship well
- **Change - chocolate chips are ok!!!!**

If you prefer not to make cookies from scratch you can buy premade cookie dough, slice and bake or packaged cookie mix and bake – the requirement is that they be baked at home – please, NO store-bought cookies.

Another easy option – Basic Cake mix cookie recipe -2 doz.:

1 box cake mix (moist if available)

2 eggs

½ c. veg. oil

Combine ingredients

Drop onto cookie sheet - Bake 350° for 9-10 min.

Variations include (you can be very creative with this recipe):

Basic recipe using chocolate cake mix and add nuts or crushed peppermint

M&M cookies - Basic recipe using yellow cake mix, 1/4c brown sugar plus M&Ms

PACKING INSTRUCTIONS:

1. Place 6 cookies in a freezer bag or double bag them (Ziplock makes pint size freezer bags)
2. Write the name of the cookie on the bag.

IMPORTANT: State “INCLUDES NUTS” if cookies contain nuts or peanut butter
